**KURINGA** is a space for research, production and qualification on Theatre of the Oppressed, dedicated to the creative multiplication of the method. We develop projects engaged in the community to foster the articulation of - local, regional and international – networks of solidarity aimed to the organization and exchange of popular theatre groups. We promote an aesthetic dialogue in order to search for alternatives to the transformation of reality. More information: [kuringa@kuringa.org](mailto:kuringa@kuringa.org)
